Get fit at Leon County Senior Outreach sites

Are you 50+ years old?

Do you want an affordable, comprehensive exercise program without going to a gym?

Would you feel more confident exercising with an instructor specifically trained to work with older adults?

Would you like to make new friends?

If your answer is YES to the questions above, then there are fitness classes in your community that may help you turn yourself into a

confident, fit, engaged SUPERPOWER! Well, that last word may be stretching it a bit, but everything is relative.

As Woodville instructor, Llona Geiger states, "Movement is medicine." She even had bumper stickers made with these exact words. She gives them out to her students and stresses the importance of remaining active, adding that "moving is important but, moving SAFELY is key." Older adults often have mobility issues that make certain move-

ments risky. Having an instructor who is familiar with the physical challenges of seniors helps keep students safe.

Another added benefit of taking a fitness class -- social connections. This may be even more important than the physical exercise. Connections to others wards off social isolation and loneliness. This helps to increase longer life, and QUALITY of life.

So, tuck that recliner back in, become a movin' and groovin' senior, and make your way to a Senior Fitness class near you! Classes are open to men and women. For class schedules at County outreach sites, and the Tallahassee Senior Center, see page 4.

NEW YEAR'S RESOLUTION: Complete your Five Wishes

Sharon D. Davidson
Big Bend Hospice

The new year is a great time to clean your home, organize your records, and update your important documents. One of those documents should be Five Wishes®, an advance care planning guide.

What do you do if you are unable to communicate or make decisions in the future to be ensured your wishes are followed by health and social care professionals? What does life-support treatment mean to you? Do you want to put an added stress on your family and friends by having them guess what you want when it comes to assisted breathing or feeding devices?

Advance Care Planning (ACP) involves thinking about what matters most to you, making decisions about what kind of medical care and treatment you would or would not want if you were at the end of life, and choosing a person who can understand these decisions and speak for you if you are unable (healthcare surrogate.)

Five Wishes® is a document that helps you and the people in your life talk together about these important matters. It's called an advance directive, because it helps you make decisions in advance that can direct your care later, and because it's recognized in Florida as a legal document for this purpose.

All Big Bend Hospice (BBH) patients and Transition clients receive a Five Wishes® document in their admission packet. Their assigned social worker, a trained ACP Facilitator, can facilitate a conversation that includes:

- Thinking through one's relevant values and preferences.
- Talking about one's values and preferences with one's spokesperson (selecting a healthcare surrogate).
- Documenting one's wishes utilizing Five Wishes®.
- Reviewing the ACP periodically as their medical and/or social conditions may change.

BBH also offers Five Wishes® on Demand through their website, www.bigbendhospice.org/advance-directives. They also offer Five Wishes @ Work to help employers and organizations ensure their employees and members get the care they want. Groups who offer

Caring community shows seniors they matter

Nicole Ballas

The phrase 'thank you' seems far from sufficient when referring to the tremendous assistance Elder Care Services has received from the City of Tallahassee, Leon and Wakulla Counties, the United Way of the Big Bend, the United Way of Northwest Florida, and generous donors over the past year.

At Elder Care, we are in awe of the outpouring of support from locals and businesses as they continue to provide consistent and nourishing meals, fans and heaters to keep seniors comfortable, and monetary donations that allow us to respond to emergencies and employ critical personnel. The pandemic has tested us like never before, but we

continue on with the mission of improving the quality of life for seniors and their caregivers.

More than ever, our community has rallied together to support essential community-based programs that have become a lifeline for a growing number of people in need.

Elder Care Services has proudly been serving Leon County for 51 years — ever since a group of concerned citizens got together in 1970 to start a nonprofit for those aging in their homes.

From the start of our flagship program of Meals on Wheels, Elder Care Services has expanded to provide professional, in-home resources for those who prefer to be in their homes or cannot afford nursing home or senior resi-

dential placements. All of our programs address how to stay safely aging-in-place while also combating social isolation — a detriment to one's mental and physical health.

We serve seniors who, for a variety of reasons (economic, social, etc.), live on very meager incomes. Often, our senior neighbors are forced to forgo essentials in order to purchase prescriptions or other necessities like utilities. Each year, we receive over 2,000 calls requesting critical needs like in-home care, food, adult briefs, and more — items that are often unobtainable for seniors on a fixed income. Without generous donors, we could not rise to meet these needs and ensure that our fellow citizens are taken care of.

As the number of seniors who are staying in their homes is growing, Elder Care Services is here to answer that call. As we have done for the past 51 years, we will continue to improve the quality of life for Leon County's seniors, creating equitable options to meet their needs — all with the support of people just like you. Thank you.

Elder Care Services, Inc. is a private non-profit corporation, dedicated to improving the quality of life for seniors in Leon and the surrounding counties, allowing them to remain at home with dignity.

Simple and easy ways to make a big impact

Tallahassee Senior Center and Foundation

Making a difference to a favorite charity doesn't have to be complicated. For example, designating 3% of your estate or 50% of a life insurance policy to an organization such as the Tallahassee Senior Center Foundation, you help sustain the incredible programs which improve the lives of seniors in this community.

In the words of Linda Roberts, a longtime TSC member, volunteer and donor: "Thanks to all the simple ways to leave a legacy, I have been able to easily share with the Senior Center Foundation for now and for the future. By signing a form to leave a portion of a life insurance policy, by rolling over a required minimum distribution of an IRA and by remembering friends with a star on the Tallahassee Senior Center and Foundation Galaxy Star Wall, I have had the joy of giving to one of my favorite charities, the Tallahassee Senior Center and Foundation and of knowing I am helping make life better for my fellow seniors."
