

## **Early Summer Evening\_TSC 3–Week Introductory Zentangle® Wednesdays\_May 28, June 04, & 11 (6:00 ~ 8:15) TSC Clay Studio**

**Zentangle®** is a fun, relaxing way to create one-of-a-kind beautiful images by drawing structured patterns (tangles) inspired by your everyday surroundings.

Founded by Rick Roberts and Maria Thomas in Massachusetts 20 years ago, the 8-core steps of the Zentangle art method will allow you to unwind, to slow down, to focus and to be in the moment. . . to enjoy the process of marking blank paper tiles with ink pen and graphite pencil.

If you can write 'I C S O' and write your name. . . you are ready to 'tangle.'  
Rekindle and boost your creative confidence 'one-stroke-at-a-time'.

**In Zentangle there are 'no mistakes, only new opportunities.'**

*This introductory workshop is for beginners; also, welcomes seasoned tangers who wish to revisit the familiars with a renewed outlook.*

Trained in-person by the creators of the Zentangle Method, **Midori Okasako CZT (Certified Zentangle Teacher)** will gently guide and support you while experiencing the benefits and enjoyment of this universal, all embracing art form.
